Cosy CORNER TIMBER SEAWALL UpGRADE

The Great Ocean Road Coast and Parks Authority are developing an adaptation plan and design for the timber seawall at Cosy Corner in Torquay. We're engaging with beach users, community members and other key stakeholders to help inform the seawall upgrade.

THE NEED FOR A COASTAL ADAPTATION PLAN

The timber seawall has deteriorated, prompting the need to upgrade it. This will increase Cosy Corner's resilience and better protect it against coastal hazards.

WHAT DO YOU WANT IN THE SEAWALL UPGRADE? HAVE YOUR SAY

Community values and local knowledge are at the heart of the adaptation planning process. What you tell us will help in confirming coastal values and tailoring adaptation options for the seawall upgrade.

Scan the QR code to find out when we will be hosting education and information sessions, complete a short survey or sign-up for updates.
