

From 1–17 September 2025, we invited the community to explore the Draft Concept Designs for the Point Grey Redevelopment through our online gallery, and information sessions (both in person and online).

HOW YOU ENGAGED

902

people accessed the virtual design gallery

33

questions were submitted through the gallery portal

50

people stopped to have a chat at our pop-up stand

KEY THEMES

- **Heritage values** – reuse of materials and celebrating Point Grey’s shared stories is extremely important to you
- **Parking and access** – year-round accessibility, ensuring enough car spaces, and improving pedestrian safety is paramount
- **Food and beverage** – you supported modest scale and heritage-linked design while questioning how the venue would operate and wanting assurances on appropriate waste management.
- **Public space** – You told us you wanted minimal development, improved landscaping, more shelters and flexible spaces.

OUR COMMITMENT TO YOU

We are committed to keeping you informed at every step of the Point Grey Redevelopment. Your voices and ideas have already shaped the project, and we want to make sure you continue to feel connected as it progresses. That’s why we’ll be providing bi-monthly updates through our Have Your Say page and community channels, sharing key milestones, celebrating progress, and answering your questions along the way. We’re deeply grateful for the passion, care, and local knowledge you bring, and we see this project as something we’re building together – creating a precinct that reflects and supports the whole

WHAT NEXT?
